## SUGGESTIONS FOR USING CIRCULATION STATISTICS RECORD

This Circulation Statistics Record is designed to meet the needs of school, public and academic libraries. The following suggestions are made for adapting the book to the requirements of each:

### PUBLIC LIBRARIES

Adult and juvenile statistics should be kept on separate pages with the word Adult or Juvenile prefixed before the heading Circulation Statistics.

### SCHOOL LIBRARIES

In school libraries which keep both elementary and secondary circulation records, separate pages should be used for the statistics of each, and the appropriate heading indicated before Circulation Statistics.

### ACADEMIC LIBRARIES

Junior college, college and university libraries, which keep separate records by class of the overnight and of the general circulation, should use a different page for each. The appropriate word Overnight or General should be written at the top of the page before the heading Circulation Statistics.

### COLUMNS WITHOUT PRINTED HEADINGS

Blank columns may be used for headings such as maps, slides, manuscripts, microfilms, etc.

Under Other Statistics may be recorded Attendance, Fines, Books added, Books withdrawn, Books sent to bindery, Gifts received, etc.

### SUMMARIES

Space has been provided for annual summaries by months. Public Library adult and juvenile summaries may be kept separately, or in school libraries, elementary and secondary may be kept separately.

Monthly headings have been omitted so that libraries may insert them in the order of the calendar, fiscal or academic year.

The space at the bottom of one summary page has been left without printed headings. It may be used for yearly summaries of other statistics.

Closed Sat.  
during July

As of July 23rd  
Young adult are  
counted in with  
adult. - because  
children's room  
opened - so  
juvenile is now  
separate.

(On with adult)

Handwritten tally marks at the top of the page, consisting of several groups of vertical lines, some crossed out with diagonal lines. Below the tally marks is a handwritten calculation in purple ink:

$$\begin{array}{r} 180 \\ - 38 \\ \hline 218 \end{array}$$

To the right of the calculation is a large, dark, curved scribble made of many overlapping horizontal and diagonal lines.
